

Ignition Switch to Resistor – Black/Red

Ignition Resistor to Ignition Coil – Red

Starter Solenoid to Circuit Breaker – Yellow

Circuit Breaker to Ignition Switch – Yellow/Black

Circuit Breaker to Voltage Regulator – Yellow/Black

Circuit Breaker to Cigar Lighter – Yellow/Green

Circuit Breaker to Domelamp– Black/Blue

Circuit Breaker to Light Switch – Yellow/Red

Circuit Breaker to Stoplight Switch – Green (1)

Notes: For some reason they seemed to have switched Yellow/Black & Black/Yellow on diagrams, most likely because they end up looking the same.

The Green wire to the Stoplight Switch would not be connected to the CB on a 39, it would be Connected to the Lighting Switch.
