Posting Pictures & Attachments on the Barn

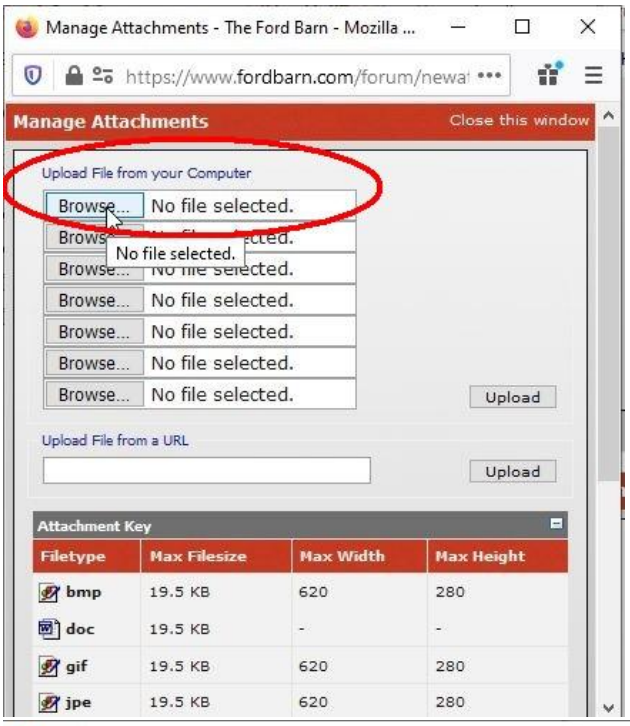

The first step is to make sure that your attachments are less than the allowed sizes shown below. Personally, I use Irfanview (https://www.irfanview.com/), an ad free and totally free image program for resizing. If you plan ahead, just bump down the size of your pictures on your camera. For a phone camera, some have had success by mailing the picture to themselves which reduces the size, then posting it.
